

## Careers Education, information, advice and guidance (CEIAG) – **Careers Programme (Benchmark 1)**

At Pakefield, we want you to achieve your very best, not only in terms of your academic studies but also in your personal development. We want to ensure that you leave us as a well-rounded individual; ready to take your place in society and be ready for the next step of your educational journey. By the end of year 11, we want you to:

- Know and understand yourself well and what kind of study and work you are suited to.
- Recognise your individual skills and personal qualities and how these can be applied to your learning and the world of work.
- Have made confident choices about your post-16 destination, whether that be remaining in full time further education or vocational learning through an apprenticeship.
- Understand the options available to you post-18 and how to achieve your goals.

In order to achieve this, we provide a comprehensive programme of independent advice and guidance tailored to your individual needs. In line with the Gatsby Benchmarks. Year 7-11 students will learn about the world of work and develop their employability skills through an enriched curriculum of contextualised learning opportunities. In all year groups, CEIAG is delivered during LIFE lessons, 1-1 careers interviews, assemblies and special events. Students also have the opportunity to visit places of work as well as higher and further education organisations.

Alongside our thorough careers provision, we have outlined how each element links to The Gatsby Benchmarks.

## Careers overview 2022-23
